

# EXTRACT LABS

AMERICAN HEMP

3620 Walnut Street

Boulder, CO 80301

303-927-6130

[www.ExtractLabs.com](http://www.ExtractLabs.com)

**COST: \$185/ two-weeks**

**Directions for submission:** Products should be in final packaging. Please send two units of products (from same manufacturing lot or batch) per two-week testing interval. One sample is needed to age in the accelerated chamber, while the other sample will act as a control. For example, if performing a one-year shelf life study, we will need 12 products for testing. If total product package size is smaller than 3g or 3ml, include an extra for each two-week testing interval (3 units per interval) to allow for microbial testing.

*Example 1 year shelf life study (12 weeks):*

*12 weeks of study with testing every two weeks = 6 tests needing 2 samples per test = 12 total products needed*

**PLEASE FILL OUT THE FOLLOWING FORM COMPLETELY AND INCLUDE WITH SUBMITTED SAMPLES.**
